

Three-cornered bowl.

Four of our Wednesday session enthusiasts had a shot at turning something quite different.

Facilitator **COLIN McKenzie** kindly led the initiative and provided the instructions, the blocks of wood and shared his expertise.

The event is captured in the pictures below.

Ric

Many thanks to **COLIN** for supporting the small team of “three-corner” bowl turners on Wednesday evening.

COLIN has also been very busy hauling three trailer loads of wood slabs to the club’s workshop.

Many of these slabs have now been purchased by club members.

Alex

Stephen and Colin

**Saturday mornings 9.00am to 12 noon.
(starting soon)**

The Hamilton Wood Turners' Workshop will be available to club members for free turning sessions

NOTE: The first Saturday free turning session will be Saturday 22nd February

ANNUAL GENERAL MEETING

All club members are requested to attend this very important meeting.

WHEN: Tuesday 18th February

TIME: 7.00pm

WHERE: At the workshop

**REMINDER
NOTICE**

AARON takes pride in achieving the best possible finish to his work. Picture on the left shows Aaron's personal branding system using a hot iron.

Two pots in one by **GARY JUDKINS**

MAX has made a flying start to her woodturning induction programme. Methinks there is a natural flair hidden there somewhere. Enthusiasm, risk taking and growing confidence are going to contribute to early successes.

Goodonya Max!

CAELAN, one of our intermediate level turners, has confidently completed two projects in the morning of the Tuesday session.

Well done Caelan. An excellent achievement.

This is **MAX** adding the final touches to her vase project.

This is only her second project and already showing skill in using a bowl gouge, cup chisel and parting tool.

Next week it's another spindle turning project - a garden implement - a dibber.

REPEAT NOTICE for all CLUB MEMBERS

High Quality wood for sale

There's plenty more slabs so do take the opportunity to add to your supply.

Refer to last week's TT to note a picture of the stack of timber slabs. Note: All slabs have been log sealed.

To alleviate the problem we have with storage, club members are encouraged to take advantage of an exclusive offer of great turning wood at hugely reduced prices. Buy them and take them home for storage.

BARGAIN prices as follows:

Chestnut	\$10 per slab	[Two slabs allowed]
Poplar	\$10 per slab	[One slab allowed]
Rewarewa	\$15.00 per slab	[One slab allowed]
Claret Ash	\$15.00 per slab	[Two slabs allowed]
Cherry	\$10.00 per slab	[One slab allowed]
Plum	\$15.00 per slab	[One slab allowed]

STOP PRESS!

Slabs of **ELM** wood is now added to the list of wood for sale to members (\$15.00 per slab)

Paul has been busy shaping a ring bowl achieving a high quality finish.

DAVID Rose has fashioned a wool ball container to keep things tidy. A top turning job.

JAMES used an block of ancient honey-gold colour Kauri wood to make his snazzy bowl.

The monster giant of the Coromandel Town forest was felled in the 1930's and lay in a swampy gully until 2005 when much of the valuable wood was rescued.

This week's news from the club's tomato growers

One of my smaller "tommies"

These wonders were the result of using mighty, mysterious and magical mushroom compost as used by some keen gardener blokes.
