DAVID GARRITY called in today to wish us all well and showed us his completed board game that originated in Nepal

DAVID ROSE has applied a Dremel tooled texture to his laminated-many-woods bowl. Good ideas here!

OK here's a great idea for a space saver and a completely portable workbench. Our DAVID ROSE has made a "West end London " style street barrow so he can wheel it out into the sunshine and work outdoors or even under the eave of the house or any quiet corner out of the weather. When the job's done he can simply wheel it back to its storage spot.

Excellent idea and well-constructed portable gadget. Now everybody will want one.
