Help! We need help!

A club members' working bee has been scheduled for Saturday 24th June starting at 9.00am and finishing soon after mid-day.

Among the several jobs that will need attention are:

- Checking all of our wood stocks for turning suitability and consigning the rubbish to the firewood bin.
- Breaking down large blocks and slabs, labelling and stacking wood to dry. (season)
- Resurfacing the platforms of all tool rests to ensure burrs, pits etc are removed.
- Servicing, including the cleaning the band saws
- Removing all items from the storeroom, sorting and replacing those items we wish to keep.
- Servicing all dust extraction machines, ducts, gateways and joints.
- Repositioning the table drop saw.

Wow! That's a whole heap of jobs to be done so the more members who can turn up to assist the quicker the work can be completed.

SUNDAY 9th JULY

Keep this date free so you can attend the club's mid-winter function.

Venue: The Roaming Giant (bar and café)

Time: 4.00pm onwards

A poor, anxious cat sat on the patients' inspection table following a thorough examination by the vet. The animal doctor entered the room with a worried look on his face and broke the news gently to the nervously waiting cat. He said, "I'm afraid it's curiosity!"

That's it for this week.

There a whole heap of our national game this weekend with Tonga playing Wales followed by the All Blacks playing Samoa tonight. Then tomorrow night at Rotorua, the New Zealand Maori team will play the touring British and Irish Lions. There's something happening on the water in Bermuda too. I hope there's some time left to do some turning in the workshop.
