Woodturning is not a matter of life or death.

It is far more important than that.

Who could possibly want to mow the lawns, or work, or go to the beach, or watch sport when their lathe is waiting? Who has time for those things when there is a club challenge to address?

My wife also has an opinion on these matters.

More great work on display this week, and some upcoming events that are worth exploring. Keep those photos coming, and any reports or stories that will pique our interest.

Special Limited Time Offer

We currently have spaces in all sessions.
If you would like to attend a **second** session you can for **half price**.

Contact; Murray Price

Dont forget our club challenge

At the end of the month, all those who have completed the challenge can bring the finished product to the club for display.

If you havent started, **Give it a go**, there is still time and someone will give you a hand if you're stuck.

Blackwood bowl from Bill

Rimu bowl from Bill

Cor blimey Lyndals hit the mark.
With figured wood and plugs so dark.
A cracker clock none can compare.
Except that tuft of coloured hair.

A lidded pot with Celtic
Knot from Denis

This goblet has not one, not
two, but three captive rings.
Great work from Alan using
NZ oak

John B. Long stemmed goblet. 345mm high. Oak and chestnut.

With expert direction from Richard.

And from Richard himself

Wall hanging. Dremel carved, dyed, shoe polished and finished with the beall system, macrocarpa with London Plane insert. 280mm.
