This week's woodturning news

## This week's STANDOUTS

Two very classy pieces of superb turnings from **ROBERT WISELEY's** lathe.

Check out the pictures below.

Which one is the totara burr wood?

Robert has achieved a continuous arc from rim to rim. A smooth sanding job and a fine lacquer finish.

## STANDOUT No2

A roll-over, curved four-legged bowl.

ROBERT has worked hard to achieve four continuous arc curves with this special turning.

OK how was the turning held in order to work the underneath side?

DON McNAUGHTON found a beautifully grained piece of wood and transformed it into this high quality bowl with a superb finish. A similar block of wood has been put into hiding with an armed guard while Don decides what to make with his hidden treasure.

*Remember, if I cannot break it, no-one can!*

DAVID COWLEY has turned a huckery old block of laminated wood into a thing of beauty.

**(Silk purse from a sow's ear award for this one)**

An even curvature from rim to rim ensures the bowl doesn't have a flat internal bottom. Good one!

(Bowls with flat internal bases are not flavour of the month)

## The THURSDAY team

Another 10-week course ends with a celebratory supper.

All members shown in the picture have indicated that they will be returning for the next 10-weeks to continue their learning journeys.

There is just one vacancy for the Wednesday team for the next course and a new recruit is expected to join the Thursday group.

There are no vacancies for the Tuesday crew as it will be operating at capacity.

**SATURDAY MORNING - 26th June**

**OPEN WORKSHOP 9.00am - 12 noon.**

**Duty Officer: Murray Price**

This event is scheduled to take place in the next few weekss.
