TUTOR's Comment

What a rigmarole it was in getting last week's newsletter together. It seems that all the little macros linked to one software version don't necessarily see eye-to-eye with all the little macros in another software programme. Anyway I've had another shot at compiling this week's TT using only the electronic thing-a-me-jigs linked to ONE programme.

I've had lots of help from the very helpful and super patient folk from **Millennium Technology & Support.**

If you ever need anything to do with computers (Home or Business) then get in touch with MTS at 42 Pukete Road, Hamilton.

www.millenniumtechnology.co.nz

MTS Phone: 07 838 2800

The TT file is a **pdf** attachment which you should be able to open with more success this time.

Cheers **CLIVE**

Picture right is of a chip and dip bowl sent to me by a mystery member who forgot to provide the vital information such as: name of maker; type of wood used; size; the finish applied and any other interesting/relevant information.

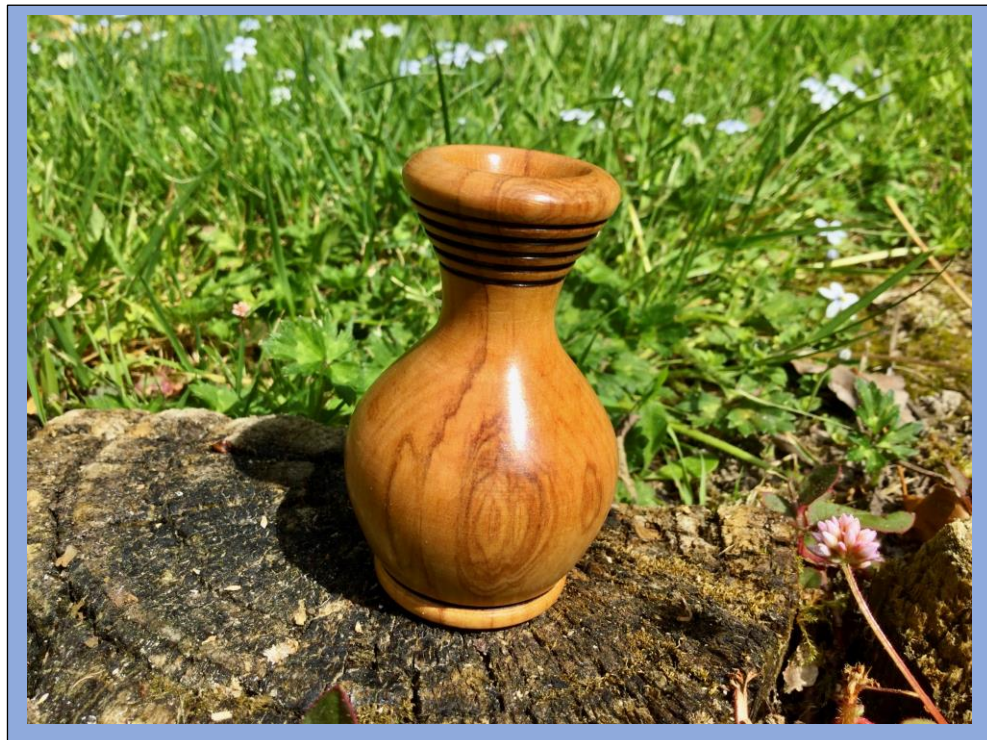

However this is a well-made turning project by a Mr Mystery Person

Not a lot of photos sent in this week so the TT is quite short this week.

Stay safe everyone, **Clive**

The Gary Judkins page

HOLY MOLEY our GARY has been having fun experimenting with vase shapes. Here's three of his turning outcomes.

Great to see our NEAGE philosophy has driven Gary to accept nothing but the best possible finish.

Goodonya Gary!
